**MOTION/RECOMMENDATION:**

1. Recommend APPROVAL of a request for a Small Scale Land Use Amendment from Suburban Estates (SE) to Planned Development (PD) and Rezone from A-1 (Agriculture District) to PUD (Planned Unit Development District); located on the west side of I-4 approximately 600 feet south of E.E .Williamson Road based on staff findings and the attached development order; or
2. Recommend DENIAL of a request for a Small Scale Land Use Amendment from Suburban Estates (SE) to Planned Development (PD) and Rezone from A-1 (Agriculture District) to PUD (Planned Unit Development District); located on the west side of I-4 approximately 600 feet south of E.E .Williamson Road; or
3. CONTINUE the request to a date and time certain.

BCC District 3 - Van Der Weide

Cathleen Consoli, Senior Planner

**BACKGROUND:**

The Seminole County BCC requests a Small Scale Land Use Amendment from Suburban Estates (SE) to Planned Development (PD) and Rezone from A-1 (Agriculture District) to PUD (Planned Unit Development District) for property located west of Interstate 4 and east of the Seminole Wekiva Trail, south of E.E. Williamson Road.

On June 24, 2003, the Board directed staff to proceed with the negotiation of a contract to purchase these 8.9 acres to locate a trailhead, process a Billboard Agreement and process an administrative land use amendment and rezoning. Please see attached Agenda Memorandum for details. The site currently accommodates five (5) Outdoor Advertising Signs. The proposed Billboard Agreement will result in the removal of three (3) signs,

the reconstruction of the northern most sign to a multi-vision sign, and the southern most sign will remain. For this activity to take place, the Florida Statutes states that the land use for billboard property must be Industrial or Commercial. The proposed Planned Development land use restricts activity on the site to the following uses: Seminole Wekiva Trailhead, Outdoor Advertising Signs, and retention. The proposed PUD zoning will allow these uses and provide for access and retention.

**STAFF RECOMMENDATION**

Staff recommends APPROVAL of this request based on the analysis in this report and conditions in the attached development order.

## STAFF ANALYSIS

### Suburban Estates to Planned Development

Amendment  
(Z2003-028,  
08-03SS.08)

1. **Property Owners:** Greater Construction Corporation, Robert Mandell
2. **Tax Parcel Numbers:** 35-20-29-501-0000-0100, 0150, 0200, 0270.
3. **Development Trends:** Development in this area is characterized by single family homes to the west and commercial activity to the north. The subject property is flanked by the Seminole Wekiva Trail on the west and Interstate 4 on the eastern property line.

## SITE DESCRIPTION

- A. **EXISTING AND PERMITTED USES:** The future land use designation of Suburban Estates currently assigned to the subject property, allows for large lot single family homes. Existing A-1 zoning implements the permitted uses allowed under the Vision 2020 Plan. Currently, five (5) non-conforming outdoor advertising signs are located on the site.

Location	Future Land Use*	Zoning*	Existing Use
Site	Suburban Estates	A-1	Outdoor advertising signs
North	Suburban Estates	A-1	Aquatic Club
South	Suburban Estates	A-1	Vacant
East	Interstate Highway	A-1	Interstate 4
West	Suburban Estates	A-1	Seminole Wekiva Trail, Single family

*\*See enclosed future land use and zoning maps for more details.*

## COMPREHENSIVE PLAN CONSISTENCY

2. **PLAN PROGRAMS** - Plan policies address the continuance, expansion and initiation of new government service and facility programs, including, but not limited to, capital facility construction. Each application for a land use designation amendment will include

a description and evaluation of any Plan programs (such as the effect on the timing/financing of these programs) that will be affected by the amendment if approved.

**Summary of Program Impacts:** The proposed amendment does not alter the options or long-range strategies for facility improvements or capacity additions included in the Support Documentation to the Vision 2020 Plan. The amendment request would not be in conflict with the Metroplan Orlando Plan or the Florida Department of Transportation's 5-Year Plan (Transportation Policy 14.1).

A. **Traffic Circulation - Consistency with Future Land Use Element:** *In terms of all development proposals, the County shall impose a linkage between the Future Land Use Element and the Transportation Element and all land development activities shall be consistent with the adopted Future Land Use Element (Transportation Policy 2.1).*

Access to the subject property will be from E.E. Williamson along a dedicated easement adjacent to the eastern boundary of the Seminole Wekiva Trail

B. **Water and Sewer Service – Adopted Potable Water and Sanitary Sewer Service Area Maps:** *Figure 11.1 and Figure 14.1 are the water and sewer service area maps for Seminole County*

The subject property is on a septic system. Seminole County water is currently available to the site.

C. **Public Safety – Adopted Level of Service:** *The County shall maintain adopted levels of service for fire protection and rescue...as an average response time of five minutes (Public Safety Policy 12.2.2).*

The property is served by the Seminole County EMS/Fire Station #36. Response time to the site is less than 5 minutes, which meets the County's average response time standard of 5 minutes.

**3. REGULATIONS** - The policies of the Plan also contain general regulatory guidelines and requirements for managing growth and protecting the environment. These guidelines will be used to evaluate the overall consistency of the land use amendment with the Vision 2020 Plan, but are not applied in detail at this stage.

A. **Preliminary Development Orders: Capacity Determination:** *For preliminary development orders and for final development orders under which no development activity impacting public facilities may ensue, the capacity of Category I and Category III public facilities shall be determined as follows...No rights to obtain final development orders under which development activity impacting public facilities may ensue, or to obtain development permits, nor any other rights to develop the subject property shall be deemed to have been granted or implied by the County's approval of the development order without a determination having previously been made that the capacity of public facilities will be available in accordance with law (Implementation Policy 1.2.3).*

A review of the availability of public facilities to serve this property indicates that there would be adequate facilities to serve this area, and that the proposed Plan amendment would create no adverse impacts to public facilities.

**B. Flood Plain and Wetlands Areas - Flood Plain Protection and Wetlands Protection:** *The County shall implement the Conservation land use designation through the regulation of development consistent with the Flood Prone (FP-1) and Wetlands (W-1) Overlay Zoning classifications...(Policy FLU 1.2 and 1.3).*

The subject property contains no wetlands.

**C. Protection of Endangered and Threatened Wildlife:** *The County shall continue to require, as part of the Development Review Process, proposed development to coordinate those processes with all appropriate agencies and comply with the US Fish and Wildlife Service and the Florida Fish and Wildlife Conservation Commission Rules as well as other applicable Federal and State Laws regarding protection of endangered and threatened wildlife prior to development approval (Conservation Policy 3.13).*

A threatened and endangered species report shall be required prior to final engineering approval for any proposed development on the subject property.

**4. DEVELOPMENT POLICIES** - Additional criteria and standards are also included in the Plan that describe when, where and how development is to occur. Plan development policies will be used to evaluate the appropriateness of the use, intensity, location, and timing of the proposed amendment.

**A. Compatibility:** When the County's Future Land Use Map (FLUM) was developed in 1987, land use compatibility issues were evaluated and ultimately defined through a community meeting/hearing process that involved substantial public comment and input. When amendments are proposed to the FLUM, however, staff makes an initial evaluation of compatibility, prior to public input and comment, based upon a set of professional standards that include, but are not limited to criteria such as: (a) long standing community development patterns; (b) previous policy direction from the Board of County Commissioners; (c) other planning principles articulated in the Vision 2020 Plan (e.g., appropriate transitioning of land uses, protection of neighborhoods, protection of the environment, protection of private property rights, no creation of new strip commercial developments through plan amendments, etc.).

Based upon an initial evaluation of compatibility, the proposed PD land use is compatible to the adjacent properties with sensitive site design adjacent to the neighboring SE property. This amendment will allow a trailhead facility for the Seminole Wekiva Trail and reduce the number of Outdoor Advertising signs. Additional information regarding lighting, buffers, setbacks and facilities on site are required prior to Final master Plan approval.

Applicable Plan policies include, but are not limited to, the following:

**Transitional Land Uses:** *The County shall evaluate plan amendments to insure that transitional land uses are provided as a buffer between residential and non-residential uses,*

*between varying intensities of residential uses, and in managing the redevelopment of areas no longer appropriate as viable residential areas. "Exhibit FLU: Appropriate Transitional Land Uses" is to be used in determining appropriate transitional uses. (Policy FLU 2.5)*

"Exhibit FLU: Appropriate Transitional Land Uses" indicates that Commercial can be a compatible transitional use adjacent to Suburban Estates with sensitive site design elements such as sufficient buffers and setbacks, controlled impervious areas, and lighting controls. The proposed Planned Development land uses will be limited to the trailhead and remaining billboards.

Other applicable plan policies include:

*FLU 2.2: Regulation of Active Uses.*

*TRA 3.1: Bicycle and Recreational Trail Planning and Coordination*

*REC 5.2 Recreational trail Development*

**B. Concurrency Review - Application to New Development:** *For purposes of approving new development subsequent to adoption of this Comprehensive Plan, all adopted public facilities level of service standards and schedules of capital improvements...shall be applied and evaluated...consistent with policies of the Implementation Element... (Capital Improvements Policy 3.2).*

This policy provides for the adoption of level of service (LOS) standards for public facilities and requires that final development orders be issued only if public facilities meeting the adopted LOS are available or will be available concurrent with the development. Additionally, preliminary development orders shall only be issued with the condition that no rights to obtain final development orders or development permits, or any other rights to develop the subject property are granted or implied by the County's approval of the preliminary development order.

#### **STAFF RECOMMENDATION:**

Staff recommends APPROVAL of the request with the following conditions:

1. The only permitted uses are Seminole Wekiva Trailhead and its accessory uses, retention areas and two (2) Outdoor Advertising signs; and
2. Vacation of right of way for Toula Way; and
3. The final Master Plan shall provide buffering to the west of the project, building setbacks, architectural style of proposed structures, proposed signage for the site, appropriate lighting design, and landscaping; and
4. Development shall comply with all applicable requirements of the Seminole County Land Development Code and the Vision 2020 Plan.

SEMINOLE COUNTY GOVERNMENT  
AGENDA MEMORANDUM

SUBJECT: Request by staff for authorization to proceed with negotiating a contract to purchase a trailhead for the Seminole-Wekiva Trail; process an administrative land use and rezoning application; and, prepare and process a Billboard Agreement

MOTION/RECOMMENDATION:

Authorize staff to proceed with negotiating a contract to purchase 8.9 acres for the purpose of a trailhead; process an administrative land use amendment and rezoning; and, prepare and process a Billboard Agreement for a property located at the southwest corner of Interstate 4 and E.E. Williamson Road.

(District 3 – Commissioner Van Der Weide)

BACKGROUND:

Staff is seeking the Board's authorization to proceed with negotiating a contract to purchase an 8.9 acre site situated at the southeast corner of Interstate 4 and E.E. Williamson Road. The potential use for the site would be for a trailhead for the Seminole-Wekiva Trail.

The County was recently approached by the site's owner inquiring whether the County was interested in its purchase. Due to a need for a trailhead along the Seminole-Wekiva Trail, staff expressed interest for it was believed that the site's size and location makes it ideal for this purpose.

An appraisal of the property indicates a value of \$615,700 without consideration of development impacts caused by any onsite gopher tortoises, or without consideration of the value of existing outdoor advertising signs. The owner is seeking an approximate

purchase price of \$575,000, subject to several stipulations. Of note at this time, the owner desires to retain ownership of two (2) of five (5) single-faced billboards that currently exist on the site. The billboards are currently non-conforming due to zoning (currently A-1), separation, and construction. The owner proposes to remove all of the billboards and then construct two new boards meeting today's current structural standards. Further, the construction proposes that one board include a westbound tri-vision face and eastbound static face; and that the other board include one westbound tri-vision face.

To accommodate the above, a Billboard Agreement, as authorized by Ordinance 2003-20 will be necessary. Billboard Agreements allow the Board to permit the removal and construction of outdoor advertising signs when the interest of the public is furthered. In this case, an agreement may be appropriate because it is in the public's interest to have a trailhead at Interstate 4 and E.E. Williamson Road.

In addition to required County approvals, State permits are needed for billboard construction / reconstruction. Chapter 479, Florida Statutes, requires that for any new or reconstructed board on a Federally Aided Highway, that the assigned land use must either be commercial or industrial. Due to the current designation of Suburban Estates Land Use and A-1 (Agriculture) Zoning, a land use amendment and rezoning will be necessary.

Staff met with representatives of the Florida Department of Transportation (FDOT) to discuss this matter. FDOT indicated that the property must be rezoned before they can issue any permits/licenses that will allow the construction as proposed. Staff recommends that to satisfy this requirement, the Board authorize staff to process an administrative land use amendment to Planned Development (PD) and rezoning application to Planned Unit Development (PUD). Staff recommends PD Land Use and PUD Zoning so that the approved uses can be limited and specific: trailhead, retention, and two (2) billboards. FDOT staff concur with this proposal.

#### **STAFF RECOMMENDATION:**

Staff recommends that the Board authorize staff to negotiate a contract to purchase approximately 8.9 acres located at the southwest corner of Interstate 4 and E.E. Williamson Road; authorize staff to process an administrative land use amendment and rezoning; and, authorize staff to prepare and process a Billboard Agreement.

In this case, an agreement may be appropriate because it is in the public's interest to have a trailhead at Interstate 4 and E.E. Williamson Road.

In addition to required County approvals, State permits are needed for billboard construction / reconstruction. Chapter 479, Florida Statutes, requires that for any new or reconstructed board on a Federally Aided Highway, that the assigned land use must either be commercial or industrial. Due to the current designation of Suburban Estates Land Use and A-1 (Agriculture) Zoning, a land use amendment and rezoning will be necessary.

Staff met with representatives of the Florida Department of Transportation (FDOT) to discuss this matter. FDOT indicated that the property must be rezoned before they can issue any permits/licenses that will allow the construction as proposed. Staff recommends that to satisfy this requirement, the Board authorize staff to process an administrative land use amendment to Planned Development (PD) and rezoning application to Planned Unit Development (PUD). Staff recommends PD Land Use and PUD Zoning so that the approved uses can be limited and specific: trailhead, retention, and two (2) billboards. FDOT staff concur with this proposal.

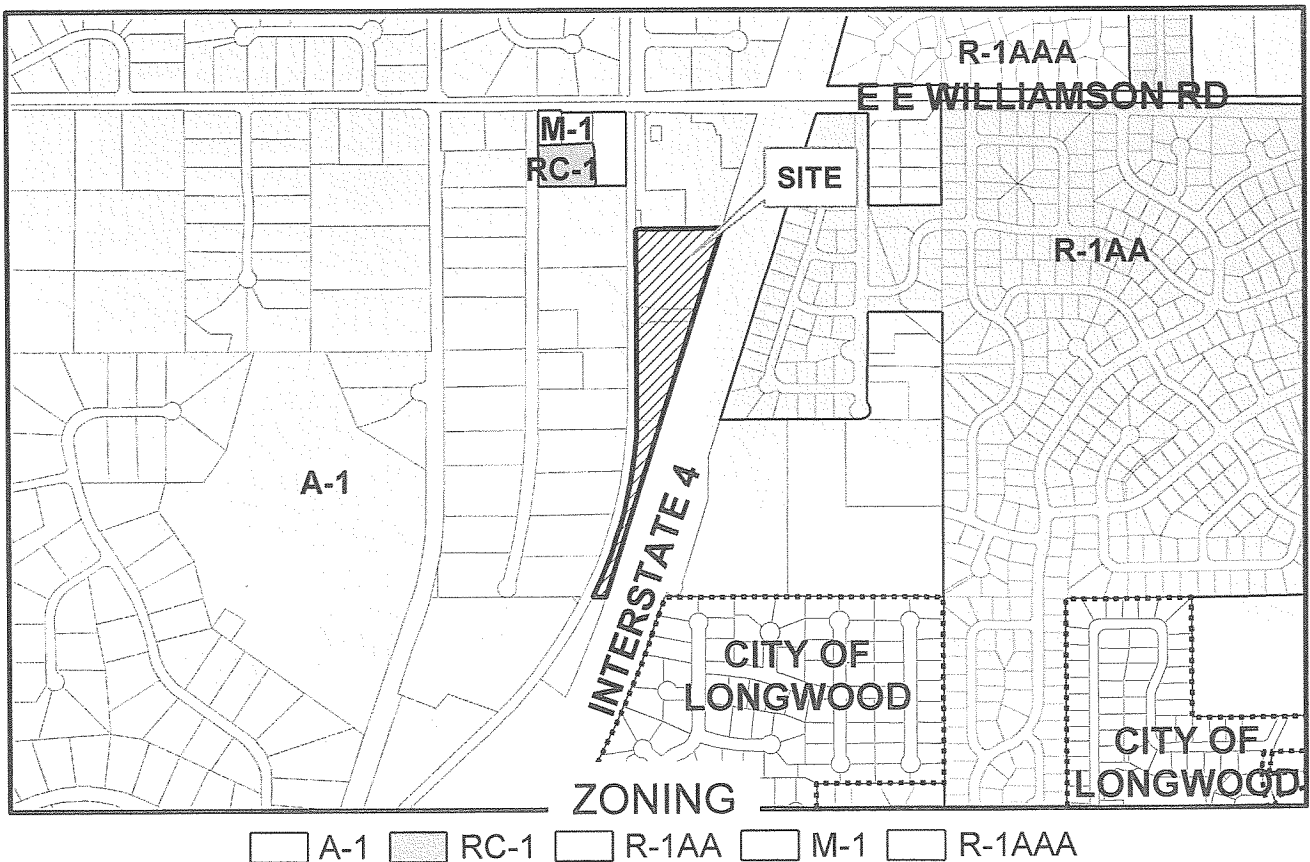

#### **STAFF RECOMMENDATION:**

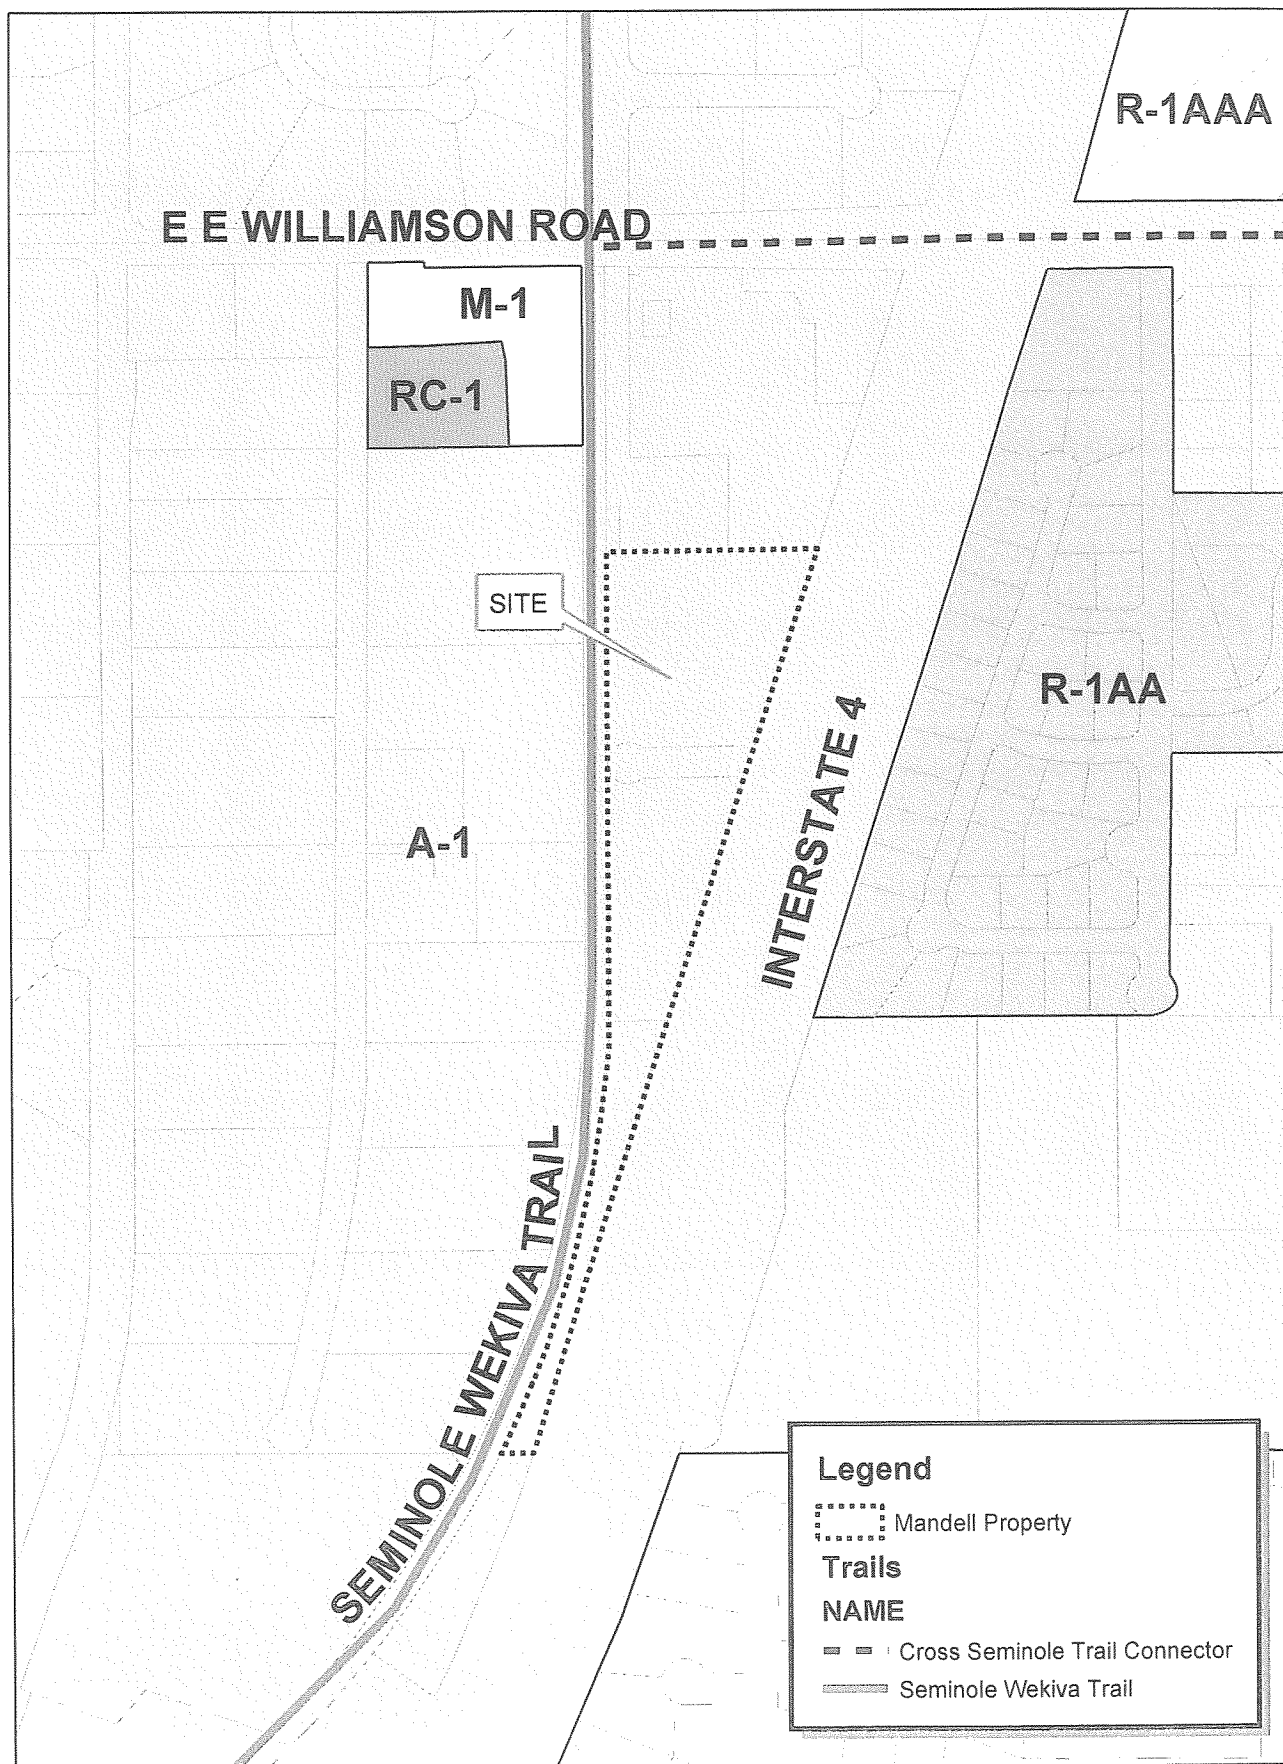

Staff recommends that the Board authorize staff to negotiate a contract to purchase approximately 8.9 acres located at the southwest corner of Interstate 4 and E.E. Williamson Road; authorize staff to process an administrative land use amendment and rezoning; and, authorize staff to prepare and process a Billboard Agreement.
